### **Fast Cars & Fast Dates - Speed Dating Singles Event @ the Milwaukee Auto Show**

Milwaukee Singles Speed Date with Pre-Dating.com Inside Cars on Display @ the Auto Show

February 25, 2011 -- In what may be a first of it's kind, Pre-Dating Speed Dating, the largest speed dating service in the US for busy single professionals will be holding a unique dating event at the Milwaukee Auto Show where singles will meet one another inside the various cars on display at the Auto Show on March 3<sup>rd</sup> at the Frontier Airlines Center.

After each short "pre-date" lasting about 4 minutes each, the men will exit a car and move to the next car over to meet another prospective date. Whether they talk about the car's features or what they are looking for in a relationship or both is up to them, but one thing's for sure, no one should be at a loss for words while sitting inside the likes of the 2011 GM cars.

While it remains to be seen if that "new car smell" will act as a pheromone to create any increase in the match rate (Pre-Dating's attendees average a 70% match rate), attendees are sure to have a lot of fun. Pre-Registration for the speed dating is required and is only \$35 which includes admission to the auto show (a \$10 value).

Interested singles looking to rev up their social life and accelerate their dating success can register online at [www.Pre-Dating.com](http://www.Pre-Dating.com) or call Martine, Pre-Dating's Milwaukee speed dating event coordinator at 608-218-4548 or Pre-Dating's national customer service line at 1-877-iPreDate.

Pre-Dating Speed Dating, Inc. is a National Singles Dating events company. Originally founded in 2001, Pre-Dating.com has continued to hold the most speed dating events every month in over 70 cities across America. Numerous relationships and marriages have been established as a result of meeting other singles at these fun and exciting events. Before you Date, Pre-Date!
