#### Guinness mark: Speed-daters seek new track record

Indianapolis, a city famous for speed of the racing kind, could gain notoriety for speed of the dating kind. On Wednesday, the Hoosier capital will be among nearly 100 U.S. cities in Cupid.com/PreDating's attempt to establish the Guinness World Record for the largest simultaneous speed-dating event in North America. Organizers are hoping for an estimated 43,200 six-minute "speed dates."

Speed dating is based on research that indicates chemistry between two people occurs within the first few minutes of meeting. During the process, participants rotate from person to person in a room on a brief "date." The applicants can quickly determine whom they would like to hear from again.

Registration is necessary at [www.Cupid.com/PreDating](http://www.Cupid.com/PreDating).
